MR 504 LH3
150 MHP

The MR504LH3 is a 4-cylinder, 2.0-litre engine designed to be lightweight and compact, delivering outstanding performance and reliability in every operating condition.

It features a 1600-bar common rail injection system for maximum efficiency and precision, a single overhead camshaft driven by a toothed belt with balance shafts to minimise vibrations, four valves per cylinder and a variable-geometry turbocharger (VGT) to optimise combustion.

Cooling is managed through a freshwater-seawater heat exchanger with separate circuits and a removable tubestack, ensuring easy maintenance.

Fast and environmentally friendly, the MR504LH3 engine is designed to meet the needs of every boating enthusiast, offering consistent performance and optimised fuel consumption.
